

# Vulture

A real eye catcher for the garden or terrace. The solid cast iron Vulture is the way to bring the inside outside.

On the inside the Vulture is fitted with a grill plate which can be adjusted in height. This gives you the possibility to cook, grill or bake on charcoal.

To extend the possibilities there are various accessories which can be ordered, such as the large grill plate, the small grill plates and the butler's tables:

| Weight    | Overall height | Height stove | Material stove | Material stove pipes | Colour | Dimensions stove  |
|-----------|----------------|--------------|----------------|----------------------|--------|-------------------|
| ca. 66 kg | ca. 180 cm     | ca. 80 cm    | Cast iron      | Steel                | Black  | H80xW65<br>D30 cm |
