Maintenance "Kettle Lago"

Dear customer,

thank you for choosing a product
from our house.

To guarantee you many years of pleasure,
we'll give you some tips on care:

- 1.)If cast iron comes into contact with moisture
If it does, rust may form.
This can be removed with a fine wire brush
Remove easily.
- 2.)You can then select this position with a
repaint heat-resistant paint.
- 3.)You can apply a thin layer of lamp oil to the
Apply the surface on the outside, the paint remains
therefore longer beautiful.
